

DAC PoE

Delta Application Controllers + Power Over Ethernet

The Delta Application Controller PoE is a powerful, fully programmable BACNet controller featuring Power over Ethernet (PoE). PoE provides high-speed communication and power with a single Ethernet cable.

Eliminating the need for additional wiring, the DAC PoE reduces the complexity of your system by leveraging your existing IT infrastructure.

Leverage your existing IT infrastructure and eliminate costs with the power of a single Ethernet cable.

Key Features

Simplify Wiring

Eliminate the costs and complexity associated with additional wiring.

Flexibility

Increase the flexibility of your network by simplifying the process of adding new equipment to your system.

Do it right.
