

# DSC

## Delta System Controllers

DSCs are perfect for controlling critical equipment such as air-handling units or hydronic systems. DSCs provide programming flexibility and include features such as memory backup and a battery-backed, real-time clock.

Control your critical equipment  
with the real-time clock and  
memory backup.

## Key Features

### Control Your Network

The real-time clock and memory backup make the DSC ideal for managing your network or controlling critical equipment.

### A Flexible Array of Sizes

The DSC comes in an array of sizes. Use it to control small terminal units or to take care of your central plant.

**Do it right.**

## Delta Controls is Worldwide

### Headquarters

17850 56 Ave,  
Surrey BC,  
Canada V3S 1C7

Tel: 604.574.9444
