

O₃ Edge

Delta
CONTROLS
A Brand of Delta

Think. Sense. Speak.

Delta Controls' award-winning O3 Edge standalone multisensor uses industry leading sensor fusion technology to deliver the most accurate view of an interior space available on the market. Integrating temperature, humidity, motion, sound, and light sensing in a single device, the O3 Sense uses machine learning to provide fast, accurate feedback on the monitored space.

Key Features

- + Measure occupant located/situated temperature precisely with combined.
- + IR and traditional sensors.
- + Accurate occupancy detection using sound and motion.
- + Communicate with occupants via RGB light ring, integrated speaker or the Seymour Connect app.
- + Integrate via the IR blaster, optional on board I/O or EnOcean connectivity.

**Standalone Controller, Multisensor,
2 Uninputs, Programmable.**
