enteliVIEW-10

Touchscreen

Description

enteliVIEW-10 is a powerful, 10.1 inch capacitive touchscreen that connects seamlessly to your building automation systems over a thin-client interface.

With robust construction ideal for high-traffic areas, enteliVIEW delivers real-time insights and control via enteliWEB and enteliVIZ, making it perfect for offices, conference rooms, and technical environments.

Integrated LED indicators on either side allow quick visual status updates with red and green signals, while a built-in buzzer delivers audible alerts, all controllable via a Red5 controller.

Specifications

Screen
Diagonal 10.1 in.
Brightness 500 cd/m²
Contrast 400:1
Resolution 1280 × 800
Lifetime minimum 25,000 h (at 50% of nominal brightness)

Touchscreen
Capacitive

Power
PoE+ (max 100 m)
12 VDC, 30 W (tolerance 5%)

Connectors
1 × RJ45 (10/100/1000 Mbps)
1 × 12 V power (barrel connector)
2 × USB A
1 × Micro USB
1 × Micro SD
1 × HDMI

Dimensions
262 × 175 × 29 mm (10.3 × 6.9 × 1.1 in.)

Weight
1.3 kg (2.2 lb)

Installation
VESA 100 × 100 mm (3.9 × 3.9 in.)

Ambient Rating
0°C to 35°C (32°F to 95°F)
0% to 90% RH, non-condensing

Compliance
UL
CSA
FCC
ICES
CE
UKCA
RoHS

Application

▶ Thin-client web panel

▶ Local interface to building automation systems

▶ Displays enteliVIZ graphics, enteliWEB dashboards, or other content accessible through a web interface

Features

▶ Durable aluminum housing

▶ Full screen browser display, options for tabbed browser functionality

▶ Pinch-to-zoom gesture support

▶ LED indicators and built-in buzzer, accessible from Red5 devices for use in control sequences

▶ Power supply via PoE+ or 12 VDC
